

## 10. OPEN AIR FIRES

- 1) No person shall ignite or set an open air fire unless the following measures are taken to limit their spread:
  - a) Fires must be contained in a non-combustible receptacle constructed of cement, brick or sheet metal with a minimum 18 gauge thickness;
  - b) a receptacle must be covered with a heavy gauge metal screen with openings not exceeding 13 millimeters; and
  - c) the size of the fire box of any receptacle must not exceed .61 cubic metres.
  
- 2) The fuel for open-air fires may consist only of charcoal or cut, seasoned wood. The burning of the following material is prohibited:
  - a) rubbish;
  - b) garden refuse;
  - c) manure;
  - d) livestock or animal carcasses;
  - e) any material classified as a dangerous good; and
  - f) any material which when burned will generate black smoke or an offensive odour including insulation from electrical coring or equipment, asphalt roofing materials, hydrocarbons, plastics, rubber materials, creosoted wood or any similar material.
  
- 3) All outdoor fires shall have responsible supervision at all times.
  
- 4) Open-air fires must not be set in windy conditions conducive to creating a running fire or a nuisance to another person.
  
- 5) If smoke from an open-air fire causes an unreasonable interference with the use and enjoyment of another person's property, the fire must be extinguished immediately.
  
- 6) The property owner/occupant is responsible for any or all damages as a result of burning.
